

Personalized services for your health & wellness.

Catalyst Health Network is dedicated to supporting your health journey.

Turn to Catalyst Health Network when you need help with:

Finding the right doctor

Referral coordinators help you find a doctor to meet your needs.

Follow your care plan

Care coordinators help you navigate the complexities of care.

Improve your health

Care management nurses help you understand and manage your health.

Manage your medications

Pharmacists help you understand and optimize your medications.

Find a Catalyst Health Network provider today by visiting catalysthealthgroup.net

Catalyst Health Network is a group of independent primary care physicians who have come together to provide coordinated, high-quality care to our patients.

The Catalyst Difference

Team-based care

Our integrated team makes sure you receive the care you need ... without having to figure out everything for yourself. Bilingual resources are also here to help.

Physician-patient focus

Everything we do ties to the patient-physician relationship, keeping your physicians central and informed in your care.

Time for the whole person

We make ourselves available to get to know you before we start determining how we can help you.

Focus Areas

We've had proven success helping people achieve measurable health improvement in several focus areas:

Diabetes

High Cholesterol

High Blood Pressure

Behavioral Health

Health and Wellness
